About Mantra Vutura.

**MANTRA
VUTURA**

Tristan and Zaki have been going to the same school since their fateful meeting during kindergarten, where they clicked instantly. Coming from families with musical background, the duo eventually went on to form Mantra Vutura. Derived from the words mantra or spells and vutura or future, the duo aims to display the eclectic way music evolves along with human values and bonds that keeps changing with time. Now, they are signed by Sun Eater Coven.

From their first EP in 2017 titled “Solar Labyrinth” to their first album “HUMAN” (2019), Mantra Vutura have always been musically diverse. Their exploration aims to serve the greater purpose of reminding people of what values we must continually learn and uphold as humans. So listen closely because their lyrics may carry a deeper meaning than you thought.

Introduction

Zakari Danubrata
Vocal & Drums

Zaki is a multi-instrument musician who is now focusing on vocals and will be the frontman of Mantra Vutura. His musicality can complement Tristan to create a good music composition.

Tristan's more of the brain in terms of his role as a producer in Mantra Vutura. He brings Mantra Vutura's character & musical visions to life with his practicality in music production.

Tristan Juliano
Keys, Synth, Vocal
